

REHAN ALI

SENIOR EMBROIDERY MACHINE OPERATOR & MECHANICAL MASTER

10+ Years Industrial Experience | Multi-Head Computerized Embroidery Machinery Specialist

Tel: +92 322 3988933 / +92 333 4130171 | Lahore, Pakistan | Portfolio: <https://rehanali.rangingfx.com>

PROFESSIONAL SUMMARY

Dedicated and highly skilled Embroidery Machine Operator and Mechanical Master with over a decade of continuous hands-on experience (dating back to 2011) in industrial textile and apparel manufacturing. Master-level operational command across computerized multi-head machinery (Yuemei, SWM, Humble, AA Champion, Great, and Pro Maker). Renowned for precise 0.05mm rotary hook timing calibration, upper/bobbin thread tension balancing, rapid mechanical troubleshooting, zero-skipped-stitch quality control, and seamless mass production for premier export and designer brands.

COMPUTERIZED MACHINERY MASTERY

Yuemei

[Budget / Industrial]

Dahao computer controls, multi-head speed tuning & rapid thread loop calibration.

SWM

[Industrial Embroidery]

Heavy-duty multi-needle setups, structural frame balance & high-output shift operations.

Humble

[Commercial Systems]

Commercial embroidery execution, zero-break tension calibration & delicate fabric handling.

AA Champion

[Heavy-Duty Industrial]

High-speed vibration dampening, electronic trimmer calibration & dense stitch density.

Great

[Multi-Head Production]

Multi-head production synchronization, multi-color sequencing & mechanical maintenance.

Pro Maker

[Industrial Precision]

Advanced computerized timing alignment, needle bar height adjustment & preventative care.

CORE TECHNICAL COMPETENCIES

Mechanical Calibration

- 0.05mm Rotary hook timing
- Needle-to-hook clearance
- Needle bar height calibration
- Driver & reciprocator repair

Tension & Operation

- Upper & bobbin tension tuning
- Zero-loop & zero-breakage SOP
- Dahao computerized panels
- Multi-head synchronization

Fabric & Quality Control

- Lawn, Chiffon, Silk & Velvet
- Stabilizer & backing selection
- 100% zero-defect inspection
- Preventive shift maintenance

WORK EXPERIENCE & PRODUCTION HISTORY

Senior Embroidery Machine Operator & Mechanical Master

Bilal Textile / Shaner

- Commanding shift operations across multi-head computerized embroidery machines running 800 - 1,050 SPM.
- Directing mechanical maintenance, rotary hook 0.05mm timing alignment, and daily preventative servicing.
- Executed export and luxury collections with zero skipped stitches, reducing machine downtime by 35%.

2020 – PRESENT | LAHORE, PAKISTAN

Embroidery Machine Technician & Operator

Bareeze / Sefam Production Unit

- Operated high-end multi-head embroidery systems for Bareeze signature designer lawn, silk, and chiffon.
- Calibrated delicate tension balancing to eliminate puckering and fabric distortion on sheer luxury textiles.
- Trained and supervised 8+ junior operators in machine setup, bobbin changing, and error diagnostics.

2016 – 2020 | LAHORE, PAKISTAN

Multi-Head Embroidery Machine Operator

Maria.B & Outfitters Apparel Production

- Produced high-volume seasonal collections for top retail fashion labels under strict production deadlines.
- Monitored 12+ embroidery heads concurrently, identifying needle burrs, thread slippage, and mechanical alarms.

2013 – 2016 | LAHORE, PAKISTAN

Mechanical Apprentice & Junior Machine Operator

Master Embroidery Works

- Completed rigorous 2-year hands-on technical apprenticeship under senior master mechanics.
- Mastered rotary hook disassembly, needle bar alignment, bobbin tensioning, and electronic panel operation.

2011 – 2013 | LAHORE, PAKISTAN

EDUCATION: Matriculation in Science (Albadr Public School) | Vocational Mechanical Apprenticeship (2011)
